

Born out of necessity.

Advanced Solar Industries is a company built from one man's desire to power his buggy lights through solar power. Since 1995, his vision has grown into 32 inspired individuals who believe everyone has the right to provide energy for themselves, on their own terms.

With generous federal incentives and Renewable Energy Credit sales, farmers nationwide are finding that solar panels not only produce power, but a dependable source of income as well. Call us today to take your first step towards energy independence!
