

## Neuro-Rehabilitation Outpatient Services

For individuals with an injury to the nervous system – such as a stroke, brain injury or spinal cord injury – or those with a progressive neurologic disease, like multiple sclerosis, ALS and Parkinson's, Baylor Scott & White Institute for Rehabilitation Outpatient Therapy has neuro-rehabilitation services that are designed to:

- **Improve or maintain function**
- **Minimize deficits**
- **Maximize overall health and quality of life.**

Our experience, individual care and innovative treatment have made Baylor Scott & White Rehab a leader in neuro-rehabilitation – and the best choice for patients and their families.

**Our outpatient therapy program has expert therapists who target the often complex needs of individuals with:**

- Amyotrophic Lateral Sclerosis (ALS)
- Cerebral Palsy
- Guillain Barré Syndrome
- Multiple Sclerosis
- Parkinson's disease
- Spinal cord injury
- Stroke
- Traumatic brain injury
- Other neurological conditions

**Baylor Scott & White Rehab's specialized neuro-rehabilitation services include:**

- **Physical therapy** - to increase strength and motor control to improve mobility
- **Occupational therapy** - to address any limitation in activities of daily living such as bathing and dressing independently
- **Speech Therapy** - to improve language deficits, cognition, attention, memory and swallowing difficulties
- **Other services, including:**
  - + Balance therapy
  - + Cognitive rehabilitation
  - + Driver's re-education
  - + Locomotor training
  - + LSVT Big® and Loud® therapies
  - + Neuropsychological evaluations
  - + Vestibular/dizziness rehabilitation
  - + Vision therapy
