

AN INVESTMENT IN *history.*

1877 Bulldog Gatling Gun

U.S. Armament Corp has brought history to life by recreating the model 1877 Bulldog Gatling gun. The 1877 "Bulldog" was the first Gatling gun to feature a fully enclosed brass housing over the barrels and breech.

Using the original plans and specifications, we have produced a beautiful fully functional collector's item. The 1877 transfers as a long gun, which can be completed at your local gun shop. We are now delivering across the continental United States.
