

HOW WILL YOU *prepare* *for a* **MEDICAL EMERGENCY DISASTER?**

September 11, Hurricane Katrina, Super Storm Sandy, the Boston Marathon bombings of 2013...

each of these crisis situation events resulted in catastrophic disaster for thousands of people. Disaster preparedness begins today with an understanding of warfare capabilities and how these capabilities can directly affect your health and the health of your loved ones.

Consider the health threats posed by nuclear, radiological, biological, and chemical (NRBC) warfare. Are you prepared for when disaster strikes?

PREPARE TODAY WITH MED-P

Doctor Thomas Stoner (Doctor T), a board certified physician with more than twenty years of combined military and civilian experience in the areas of NRBC warfare, introduces his latest book *MED-P: A Manual for Medical Emergency Disaster Preparedness*. From the geography of disaster to the essential medicines you need for a home disaster preparedness kit *MED-P* is your essential guide to disaster preparedness for you and your family.

Stop by our booth to get your copy of *MED-P* and meet Doctor T.
